EXPERIENCE

Senior Manager, Business Development | National Audubon Society | Remote | July 2026 - Present

- Building market infrastructure for Audubon's Conservation Ranching across 2.9 million acres and 115 ranches that protect grassland biodiversity through regenerative agriculture practices.
- Strengthening certification value proposition through case studies, impact metrics, and industry standards.
- Connecting consumer-packed goods markets to bird conservation and supply chain sustainability through market-based incentives.
- Tracking and reporting partnership development progress and resulting conservation impact, supporting annual market development budgets, and contributing to private and public funding efforts.

Adjunct Faculty Sustainable Building Science | Seattle Colleges | Seattle, WA | March 2026 - Present

- Instructing coursework and translating energy codes, building performance standards, and decarbonization frameworks for journey-level tradespeople and working professionals in the clean energy sector.

Consultant | WSP | Seattle, WA | April 2024 – August 2025

- Measured and managed GHG inventories across Scope 1, 2, and 3 emissions for software and technology clients, identifying decarbonization opportunities and supporting supplier engagement across the value chain; Assessed IFRS, CSRD, and regulatory frameworks, preparing multinational clients for evolving disclosure mandates and investor-led reporting programs.
- Delivered carbon procurement briefs, translating sustainability targets into actionable roadmaps for client capital planning and long-term operational resilience.

Program Manager, Intern | American Family Insurance | Remote | May 2022 – September 2022

- Supported deployment of \$4M+ in environmental and economic empowerment investments, aligned with TCFD frameworks; Led implementation of a tree equity initiative across 5 U.S. cities, advancing urban climate resilience and community adaptation to physical climate risks.

Research Partner, Intern | Washington Sea Grant | Seattle, WA | May 2022 – September 2022

- Managed geospatial, socio-economic, and interview data to identify coastal communities for programming initiatives aligned with Washington Sea Grant's hazard resilience and climate adaptation priorities.

Program Assistant | Arizona State University | Tempe, AZ | August 2019 – May 2022

- Supported NSF-funded urban ecological research in the Phoenix metropolitan area, contributing to long-term field monitoring, socio-economic data collection, and transdisciplinary community outreach across 12 key study neighborhoods examining urban heat, climate resilience, and equitable access to ecosystem services.
- Managed 12 sustainable education programs in ESG, sustainability reporting, and climate leadership for 100+ businesses, government agencies, and nonprofits through ASU's College of Global Futures; Built cross-sector partnerships with Wells Fargo, The World Bank, IFC, MasterCard Foundation, and EPA to advance sustainability programming and GRI standards adoption.

EDUCATION

Master of Science in Sustainability, Enterprise and the Environment — University of Oxford

Bachelor of Science in Sustainability — Arizona State University

PROFESSIONAL ORGANIZATIONS AND VOLUNTEERING

Co-Chair, Programs | Naturally Seattle |

- Directed programming strategies for a 100+ member Seattle natural products network, convening entrepreneurs, investors, and sustainability-focused companies to drive brand awareness.

Exhibit Assistant | Woodland Park Zoo |

- Delivered daily conservation programming to 1,000+ visitors across 268 species while managing animal care, feeding, and welfare protocols.
